Aman Verma
Full-Stack Web Developer

+916306805527 | amanvermalmv211@gmail.com | linkedin.com/in/aman-verma-770ab5252 | Bangalore

SUMMARY

Entry-level **Full-Stack Web Developer** with hands-on experience in **Java, JavaScript, React, Node.js**, and **MongoDB**. Skilled in developing scalable web applications, with a strong focus on user experience, performance, and clean code practices. Demonstrated ability to manage both frontend and backend development using the MERN stack.

EXPERIENCE

Freelance Project (itutors)   June 2025

• Built a full-stack TypeScript MERN application for iTutors enabling admin to manage student records, track fee payments, update subscription status, and send notifications with role-based access and a clean, responsive UI.

Computer Science teacher at Mount Litera Ghazipur Zee School   2024 – 2025

• Instructed Computer Science to students from grade IX to XII, delivering comprehensive lessons on foundational topics including programming and basic technology concepts to foster critical thinking.

• Evaluated Class X board exam answer sheets with strict adherence to CBSE guidelines, ensuring accuracy, fairness, and confidentiality in the marking process.

Freelance Project (shutterpics.in)   July 2024

• Developed a portfolio and booking website for a studio person to showcase his services and streamline client booking. Implemented user profiles, allowing clients to view photographer availability and book services directly.

• Designed a feedback system to capture and display customer testimonials, enhancing social proof.

Internship At Cograd (certificate)   February 2024 – June 2024

• Built responsive UI for the Cograd job portal using React.js and Tailwind CSS. Developed sign-up, login, and job posting pages with focus on smooth user experience.

• Implemented secure authentication with OTP verification using Node.js, Express.js, and MongoDB. Handled API integration for recruiter and applicant workflows.

PROJECTS

meriLibrary Project (merilibrary.in)

• Developed and deployed a MERN-based library management platform connecting students with local libraries.

• Implemented real-time subscription tracking, notifications, role-based access (Library Owners & Students), and search functionality based on locality. Integrated automated subscription expiry alerts.

Jewel Shop (frontend, backend)

• Developed an e-commerce website using the MERN stack which has responsive, user-friendly interface with reusable React components for code efficiency and consistency across the website.

• Implemented an admin login, user registration and login systems. Admin can ensure the website content is up-to-date. Adjusted database schemas according to the application changes and created API's for product management.

Portfolio (link **)**

• Developed a personal portfolio website that provides a comprehensive view of professional journey. The website, built using React JS, showcase skills and projects.

SKILLS

• Programming Languages: Java, JavaScript, Python

• Frame works: React JS, Node JS, Express, Tailwind CSS

• Database management: MongoDB Atlas, SQL

• Version Control: Git (github.com/amanvermalmv211)

• Others: Communication, Problem-solving

EDUCATION

• Pursuing MCA from Jain University Bangalore   2025
• College Of Vocational Studies, Delhi University - B.Sc.(hons.) Computer Science | CGPA: 8.0/10   2021 – 2024
• Jawahar Navodaya Vidyalaya, Ghazipur: CBSE(12th), 89.2%   2020 – 2021
• Jawahar Navodaya Vidyalaya, Ghazipur: CBSE(10th), 94.2%   2018 – 2019

COMMUNITY INVOLVEMENT

• Head of Web Development Tutorial Classes: SkillX Community

SkillX is an engaged learning collective of students eager to work on diverse skills.
